Booz Allen Hamilton's Information Technology (IT) General Services Administration (GSA) Federal Supply Schedule (FSS) offers government agencies a streamlined way to procure a wide range of effective solutions to meet increasingly complex technology challenges. Our IT Schedule gives quick and easy access to Booz Allen's expert advice and technology solutions, including a wide range of IT professional services.

The IT GSA Schedule

This contract vehicle has many attractive features:

- Structured as an indefinite delivery/indefinite quantity (ID/IQ) multiple award schedule (MAS); contract valid through **31 January 2010** with two 5-year option periods
- Can be used worldwide by all federal agencies, mixed ownership government corporations, and the District of Columbia
- Employs pre-negotiated fair and reasonable pricing
- Reduces typical procurement lead times and administrative costs
- Identifies a Maximum Order (quantity), after which an agency may seek further discounts on pricing
- Stipulates no dollar value limit on task orders
- Offers alternative contract options: Firm Fixed Price, Time & Materials, or Labor Hour
- Allows creation of Blanket Purchase Agreements (BPA) for recurring needs

- Offers unique Contractor Teaming Arrangement options for complete solutions
- Orders placed under GSA Schedules meet the Competition in Contracting Act (CICA)

Booz Allen's IT Service Offerings

Booz Allen services cover all phases of the IT lifecycle, including planning, analysis, design, development, testing, integration, and implementation of information systems and telecommunications networks.

IT Strategic Planning and Management—

Draws on a portfolio of integrated capabilities and expertise to ensure that the agency's foundation and direction in applying IT are well defined, efficient, and consistent with commercial and government best practices and legislation.

- System Strategic Planning
- Capital Planning and Investment
- Standards and Methodologies
- Performance Measurements
- Organizational Development
- Section 508 Compliance
- HSPD-12 Compliance

IT Systems Analysis—Provides front-end system analysis services to ensure the agency's IT investments focus on information systems and telecommunications networks that solve its real problems.

- Business Process Reengineering
- Requirements Analysis
- User-Oriented Design
- Business Case Development

Information Technology (IT)

IT System Engineering—Ensures that information systems and networks capitalize on agency architectures and standards, provide interoperability with other systems, are reliable and maintainable, and make the most cost-effective use of COTS technology.

- Network Analysis and Design
- COTS Product Evaluation
- Systems Integration
- Information System Design
- Software Development
- System Migration
- Testing and Evaluation
- HSPD-12 System Integration

IT System Implementation—Rolls out the system or network investment in stages to minimize disruption of existing business and ensure early success and return on investment.

- Facilities Design
- System/Network Deployment
- System Cutover and Transition
- Training and Technology Transfer

IT System Operations and Maintenance (O&M)—Delivers the cost-effective O&M concepts built in during system engineering for information systems and telecommunications networks.

- Facilities Management
- Help Desk Operations
- Software Asset Management
- Application System Maintenance
- Network Management

IT Program Management—Ensures IT solutions are integrated into the overall organizational and programmatic

infrastructure for optimal improvement in performance and that IT projects are successfully managed—throughout an agency's competitive IT budget process.

- Lifecycle Cost Analysis and Modeling
- Integrated Logistic Support
- Acquisition Planning and Support
- Project Management
- Quality Assurance and IV&V
- HSPD-12 Program Management

IT System Security—Helps the agency identify vulnerabilities, manage risk, and implement security processes that improve the protection of their IT systems and critical resources by applying our IT system security capabilities to the agency's specific environments.

- Data Sensitivity Analysis
- Intrusion Detection and Audit
- Security Awareness Training
- Security Solution Integration
- Security Architecture and Engineering
- Certification and Accreditation
- Disaster Recovery

IT Advanced Technology—Provides leading-edge and emerging technology expertise, allowing organizations to capitalize on the latest IT advances. A primary focus is Internet/intranet and Web-based application development.

- Technology Evaluations and Feasibility Studies
- Prototyping
- System Engineering
- Software Development
- Installation and Implementation
- Life-Cycle Support

How to Place an Order

You can contract directly with Booz Allen using our GSA contract vehicles.
