

**Metters Industries, Inc.**

## **Metters Industries, Inc. Capabilities Summary**

Metters Industries, Inc. (Metters) is a systems engineering, research, and development company providing products and services to government and industry customers. Metters is a certified Small Disadvantaged Business (SDB), as well as a Service Disabled Veteran Owned Small Business (SDVOSB). Our headquarters is located in McLean, VA with six additional offices in the United States.

Our company is organized around two major customer bases, Federal Government and Custom Manufacturing. Our Federal Systems Group supports various Department of Defense (DoD) and other Federal agencies components providing engineering and analytical services, network support and systems integration, and programming and application development. Our Custom Manufacturing Group includes Orlando Training & Simulation, which provides computer operated training devices to the U.S Army, Marine Corps, and Air Force.

We have a long-standing relationship with various Federal Agencies and Private Sector Corporations with a specific expertise in Aerospace Engineering, Logistics, network infrastructure, Business Process Reengineering (BPR), and financial management information systems.

Metters provides a broad range of services in the areas of systems engineering, computer science, information management systems, custom manufacturing, acquisition management systems, and Foreign Military Sales (FMS) management. These capabilities are superimposed on the company's original credentials that were initially established by offering architectural engineering, technical, and logistics services. Metters has grown and evolved into a sophisticated engineering and systems engineering research and development company with a reputation for quality performance and an intensive management philosophy of involvement in project performance.

Our major technical focus areas include: Software and Applications Development, Information Technology, Engineering and Technical Services, Logistics, Custom Manufacturing, Precision Engineering, Simulation and Training, Call Center and Help Desk Support, Legacy System Transformation, Internet/Web Services, and Course Curriculum Development. Our Federal clients include, but are not limited to, the U.S. Army, U.S. Navy, Department of Veterans Affairs, Office of the Deputy Undersecretary of Defense, NASA, U.S. Department of Housing and Urban Development, and the Environmental Protection Agency.

The most significant strength offered by Metters is the background, experience, and diversity of its professional staff. Individually, the backgrounds include business, management, engineering, computer science, service management, and administrative services.

We have 26 years of experience, with mature management processes and procedures. Metters follows Project Management Institute (PMI) processes and methodologies on all projects. We have achieved the following quality certifications: SEI CMM Level 3 Certification (external evaluation), ISO 9001:2000 registered (at our production facility in Orlando, FL). Metters partnerships include: Microsoft Registered Partner, Cisco Partner, and HP Partner.
