

## **TechOp Solutions International Inc., (TSI)**

### **A Veteran Owned Small Business**

[www.techopsolutions.net](http://www.techopsolutions.net)

TechOp Solutions International (TSI) is a small, veteran-owned operational and technology consulting firm, incorporated in December, 2005. Our mission is to provide this Nation's crisis managers and professional staff, with unimpeachable credibility in continuity programs, strategic planning, technical innovation, organizational design, force modernization, operations center concepts and technologies, business processes, and next-generation C4ISR integration. TSI's Key Management Personnel have decades of real-world operational and technology expertise to offer Federal, state, local and private/commercial organizations responsible for preparing and/or responding to security threats including all natural and unnatural disasters.

TSI provides a critical and unique blend of operational and technical expertise. TSI staff members are more operational than most technologists enabling them to precisely understand the operational requirements and assist in focusing development efforts efficiently on the priority tasks. TSI Staff members are also more technical than most operators enabling them to assist operators throughout the homeland security and homeland defense communities of interest in understanding the technology investment vectors, technical challenges and developmental pace. TSI Key personnel bring a depth and breadth of knowledge along with a distinctive view and comprehensive understanding of national security (specifically Strategic Planning, Continuity of Operations (COOP), Continuity of Government (COG), C4ISR Integration, Operations, and Crisis Management) challenges and information technology derived from years of experience in each of these areas.
