# Training Support System (TSS) Enterprise Mission Support Services

## Introduction

Although the US Army has never been better organized, trained, or equipped, it is entering an uncertain future and a period of sustained conflict. Given this view of the future, it is an essential requirement that the Army develop a cohesive, trained, and ready Land Force (Active and Reserve Components) that can dominate the full spectrum of conflict under all conditions. Fulfillment of this requirement is the challenge of the Training Support System (TSS) Enterprise. To be successful, all organizations in the TSS Enterprise must work collaboratively to develop, deliver, and support an operationally relevant and integrated Live, Virtual, Constructive and Gaming (LVC&G) training environment for the Soldier.

## Booz Allen Helps Clients Get Ready for What's Next

Booz Allen Hamilton, a leading strategy and consulting firm, has recently been awarded the TSS Enterprise Mission Support Services contract and several follow-on task orders, including providing Live, Virtual, Constructive—Integrating Architecture (LVC-IA) Support Operations. We will lead a team that has been a critical provider of Army training support throughout its evolution into the TSS Enterprise. In fact, our team members collectively have more than 200 years of corporate experience supporting various TSS components. Through this experience, we have developed a thorough understanding of the enterprise and integrated team approach. Our robust team covers the broad portfolio of capabilities and mission support services required to ensure the Army trains smarter, better, and with increased capabilities. Some of the significant factors that enable the Booz Allen team to effectively support the TSS Enterprise Mission Support Services contract are—

- The team offers recent, relevant training experience delivering innovative solutions to TSS Enterprise challenges
- The team delivers proven processes, tools, deep technical expertise, and lessons learned to ensure success

- The team delivers the program management excellence required by TSS, which we have demonstrated in multibillion dollar, complex engagements in 500+ CONUS locations and over 250 OCONUS locations in 13 countries.

Booz Allen has assembled a high-performing, experienced team of 11 large businesses, 6 small businesses, and 1 AbilityOne firm that together provide significant breadth and depth across all TSS task areas at all potential training locations around the world. Many members of the team are key incumbents in the TSS Enterprise. Our team members are—
