## Law Enforcement and Security Services

### General Services Administration Federal Supply Schedule 084 GS-07F-0056V

Booz Allen Hamilton, a leading strategy and technology consulting firm, offers the law enforcement community a streamlined way to procure a wide range of effective solutions on the General Services Administration's (GSA) Schedule 84. Under this contract, we offer quick and easy access to Booz Allen's subject matter experts in system development and integration, and intelligence analysis and training; national emergency preparedness technical and engineering specialists; organizational transformation professionals; and seasoned law enforcement practitioners. Schedule 84 provides a flexible contract vehicle with the scope to address your national security, emergency preparedness, and cybersecurity needs.

#### Law Enforcement and Security Services

Through Schedule 84, Federal Government law enforcement agencies can procure Booz Allen's wide range of emergency preparedness products, services, and solutions:

- Investigative Technologies: Digital Surveillance Solutions/Biometric Support Services
- Law Enforcement Intelligence Programs: Analysis and Training
- Computer Forensics
- Information Sharing Programs
- Emergency Preparedness and First Responder Expert Assistance
- Simulation, Exercise, and Training
- Security System Integration Services
- Critical Infrastructure Protection (CIP) Analysis
- Threat Assessment
- Risk Management Analysis

#### Full Life-Cycle Security System Support

Our subject matter experts provide the following services under Schedule 84:

**Professional Security/Facility Management Services (SIN 246-52)**—Support for national emergency preparedness, protection of cyber and physical security, vulnerability and threat assessment, information technology, and technical assistance support.

**Security Systems Integration and Design Services (SIN 246-60-1)**—Design, test, production, and fielding of cost-effective security and/or protection systems, as well as risk assessment, threat evaluation, and assessment studies and analysis.

**Security Management and Support (SIN 246-60-2)**—Technologies and methodologies to plan, design, manage, operate, and maintain secure, protected systems, equipment, facilities, and infrastructures, and to complete turnkey operations, maintenance, and support services.
