Net-Centric Solutions

Booz Allen is a Strategic Integrator for NETCENTS

Booz Allen Hamilton, a leading strategy and technology consulting firm, approaches systems integration from a solutions perspective. Understanding the client's needs, using leading-edge technology and practices, and ensuring solutions align with stakeholder strategies are paramount to delivering capabilities to the warfighter. Net-Centric solutions imply a dramatic shift in technology capabilities and architectures in response to Net-Centric operations and warfare—beyond the promise of new products and more bandwidth. Booz Allen combines technical leadership in key enablers, such as service-oriented architecture (SOA), Internet Protocol Version 6 (IPv6), and Quality of Service (QoS)—with a strategic and objective perspective unsurpassed by traditional systems integrators.

Key Experience

- US Air Force (USAF) Concept of Operations (CONOPS) and Integrated Capabilities Review and Risk Assessment (I-CRRA) Analysis and Development at the Air Staff
- Core Enterprise Services: Net-Centric Enterprise Services (NCES), USAF Enterprise IT Services, and Net-Centric Enterprise Solutions for Interoperability (NESI)
- Office of the Assistant Secretary of Defense/Networks and Information Integration (OASD/NII) Technical and Policy Support (Net-Centric Checklist, Net-Centric Data Strategy, Enterprise Services Management [ESM] Strategy and Requirements)
- Anti-Drug Network (ADNET) Development, Implementation, and Operations
- Transformational Communications Systems Integration and Integration (SE&I)
- USAF Weapons Vault and Security Program
- Joint Task Force—Center for Network Operations (JTF-CNO)
- Air Force Warfighting Integration (AF/XI) Support
- Voice Over IP (VoIP), QoS, IPv6, Wireless, Free Space Optics, CND Technologies
- Enterprise Systems—Department of Defense (DoD) Domains
- GIG Engineering and Testbed

delivering results that endure

NETCENTS Contract

In 2004, Booz Allen was awarded a \$9 billion, 5-year, Indefinite Delivery Indefinite Quantity (IDIQ) contract from USAF for NETCENTS. A 1-year extension plus an additional option year are anticipated. As a vehicle for use across the USAF, DoD, and federal government, NETCENTS provides decentralized ordering to deliver on your program's need for systems and infrastructure in a Net-Centric environment.

Booz Allen's NETCENTS partners comprise world-class technology providers, including APPTIS, EDS, Verizon Business, SRA, Smartronix, BTAS, enGenius, SmartnetGov, EMW, Sprint, Level-3, AFL Telecom, LightRiver, and TIG.

Reasons for Using NETCENTS

- Available to all Department of Defense (DoD) and federal agencies
- Quick response time and simple ordering process
- Issuance of task orders by e-mail, regular mail, or facsimile using DD Form 1155, Order for Supplies or Services, or SF Form 1449, Solicitation/Contract/Order for Commercial Items
- Contracting choices of Full and Open, Small Business Set Aside, and Sole Source (with appropriate justification)
- Low 1-percent usage fee
- Access to eight prequalified primes with Capability Maturity Model Integration (CMMI) and ISO 9001 certifications
- Government Purchase Card (GPC) ordering
- Broad and competitive list of labor rates and categories
- Online product and service ordering
- Use of all types of funds permitted
- Decentralized ordering (DCO) or orders placed through the 754th Electronic Systems Group (ELSG) Contracting Office
