Rapid Response 3rd Generation (R23G) Contract: Quick Guide to R23G

Contract No. W15P7T10-D-D415

The R23G's client mission: The Rapid Response (R2) Project Office seeks to provide unique and flexible acquisition and technical expertise that is capable of rapidly implementing quality solutions through a lean process that satisfies customer mission requirements across the entire spectrum of federal agencies.

The R23G's client vision: Leading acquisition and delivering customized, best-value contractual solutions to and for every platform and theater in the world.

Booz Allen Can Help You Be Ready For What's Next

Booz Allen Hamilton, a leading strategy and technology consulting firm, combines a deep understanding of the client's mission and environment with expert services and an absolute commitment to client success. Our public-sector work has significant impact by enhancing national security, economic well-being, and the health and safety of countries around the world.

Booz Allen's reach stretches across the globe and supports all government agencies. Using our tremendous reachback, we can apply technical skill sets across the entire scope of the R23G effort. Our team of 38 subcontractors—each selected for its unique capabilities and depth across the requirements of the contract—and our commitment to meeting the small business participation requirement enable us to provide our clients with a value-added resource to help them accomplish their missions.

Booz Allen understands the environment in which government agencies must function and has established a sophisticated program office infrastructure to provide quick-reaction support capabilities. All of our capabilities, available through the Communications Electronics Command's (CECOM) R23G contract, allow clients to access Booz Allen's comprehensive expertise quickly—anywhere in the world—to accomplish their missions.

- Low administrative support cost
- Real-time access to web-enabled database for monitoring task order status
- Long period of performance
- Cost reimbursable, firm-fixed price, and time and materials task orders

Why Booz Allen?

- Our leaders and key personnel are the best people
- Our team structure, management processes, rapid response capabilities, and proven ability to manage large teams
- Our commitment to effective subcontract management
- Our technical capabilities in delivering Quick Reaction Capabilities (QRC) and other key rapid response requirements
- Our relationships and understanding of the R2 Project Office mission

Booz Allen's Commitment To R23G Team

The Booz Allen R23G team is comprised of “best-in-class” teammates representing the skill areas of the R23G performance work statement. This team concept has the primary focus of achieving the best solution. This is a strong and proven team with many of its members having successfully collaborated to support the Rapid Response Project Office mission in the past. The R2 Project Office requirements demand more than the typical arms-length relationship between government and prime contractor and between prime and subcontractors. Booz Allen does not envision R23G support as a series of single transactions; rather, we see it as a long-term engagement in which all stakeholders—starting with the prime and including each subcontractor—are actively engaged in helping meet the challenges R2 faces over the next decade.

Booz Allen takes our commitment to small business very seriously and our proven record of meeting small business goals is evidence of our dedication. The R23G team employs innovative methods to ensure we exceed small business utilization requirements. We share CECOM's commitment to small business and have achieved successful results by partnering with small businesses on similar efforts.

Whether you're managing today's issues or looking beyond the horizon, count on us to help you be ready for what's next.
