SECTION C DESCRIPTIONS AND SPECIFICATIONS

PERFORMANCE-BASED

STATEMENT OF WORK FOR TECHNOLOGY AND MISSION SUPPORT FOR THE INFORMATION PROCESSING TECHNIQUES OFFICE (IPTO) DEFENSE ADVANCED RESEARCH PROJECTS AGENCY (DARPA)

1.0 GENERAL

1.1 Introduction

The Indian Head Division, Naval Surface Warfare Center (IHD/NSWC), Indian Head, Maryland has been tasked to provide technology and mission support services to assist the Information Processing Techniques Office (IPTO) of the Defense Advanced Research Projects Agency (DARPA).

1.2 Scope

The scope of this effort is to provide technology and mission support services in support of IPTO's multiple research and development programs. The contractor shall provide technical support and subject matter expertise to IPTO for existing and planned programs, new start ideas, and technology research.

The contractor shall advise and assist the Government, but shall not make final decisions or certifications on behalf of the Government nor perform any inherently Governmental functions. The contractor and its employees shall not represent the Government nor appear to represent the Government in performance of these contract services. At all times, contractor personnel shall wear appropriate identification (in accordance with DARPA instructions and policies) identifying themselves as contractor personnel. At all meetings, conferences, or sessions with Government personnel, contractor personnel shall clearly identify their status as contractor employee. All reports required as deliverables under this contract are property of the US Government. Reports shall not contain contractor name, logo or other contractor-identifying device.

2.0 REQUIREMENTS

The contractor shall provide the personnel and office facilities necessary to support the mission of IPTO as described below. The contractor shall provide personnel who have the necessary skills and expertise to accomplish their assigned functions and ensure performance is maintained for all tasks. The contractor shall use effective benchmarks measuring actual performance against quantifiable goals to report on their quality of service. The contractor will provide orientation and continuous training for all new and existing personnel employed in support of this effort to ensure that services provided are efficient and seamless. Training will cover the latest processes, procedures, policies, applications and tools employed at DARPA.

It is advantageous to have the contractor office facilities in close proximity of the DARPA facility which is located at 3701 North Fairfax Drive; Arlington, Virginia. It is preferred that the contractor facility be located within a 15 minute walking distance of DARPA. The contractor facility will include a conference room cleared at a minimum to the SECRET level with adequate space to accommodate 40 people. A Secured Compartmental Information Facility (SCIF) is desired, but not required. It is anticipated that approximately 20% of the personnel will be physically located on-site within the DARPA complex. For these individuals, office space and furnishings will be provided by DARPA.

2.1 TECHNOLOGY ASSESSMENTS

The IPTO Office Director, Deputy Director, Assistant Director Program Manager (ADPM), and Program Managers (PMs) require assistance in collecting and analyzing information related to their programs including external

advances in information processing technology. The contractor shall assist IPTO with technology assessment including:

- Conducting detailed market analysis to identify commercial investments in technology
- Identifying militarily critical gaps in commercial technologies and products, and recommending focus areas for IPTO development efforts
- Setting up panels of industry experts to exchange ideas and develop long-term program and transition plans
- Assessing technology assimilation rates
- Determining military research needs
- Identifying industry trends/scenarios
- Developing new technology concepts for IPTO new-start projects
- Independently evaluating and assessing technologies for on-going IPTO projects.

The contractor shall not be responsible for determining patent or intellectual property ownership rights. The contractor shall also adhere to Organizational Conflict of Interest clauses.

2.2 SYSTEM ASSESSMENTS

2.2.1 IPTO performs system assessments to understand how sensor, exploitation, and decision systems developed within the office will be transitioned to military users and to commercial industry. IPTO products will serve military needs and complement, not duplicate, commercial initiatives. The value of an IPTO product will depend on various characteristics of the situations in which it will be used, the capabilities of affiliated software or hardware components, and the mission it supports. System assessments estimate the contribution of IPTO technology to overall warfighting capability, as expressed in quantitative figures of merit. The contractor shall assist with providing system assessments services within the provisions of this task order.

2.2.2 The contractor shall analyze existing IPTO sensor, exploitation, and C2 technologies and systems and assess transition maturity. Candidate programs include ARGUS-IS, CNAV, EXACTO, FORESTER, HART, PANDA, URGENT, VADER, and VIRAT. Where appropriate, the contractor will recommend strategies and architectures for integrating stand-alone components to solve a larger military problem. The contractor shall identify and work with transition partners to develop transition strategies and gain advocacy for DARPA technologies. The contractor will develop a Modeling and Simulation strategy that allows IPTO to cost-effectively explore C3ISR concepts, identify technology shortfalls, and test developing sensor, exploitation, and C2 technologies and systems. The contractor shall independently evaluate and assess systems for ongoing IPTO projects.

2.2.3 The contractor shall assist with research and quantitative analysis of identified unique and emerging technologies and systems, and the preparation of reports based on the findings with recommendations of specific application to tactical hardware and related training support systems.

2.2.4 The contractor shall conduct studies and analyses of topics (research development, testing, and others) as directed by the Government. In general, this shall consist of research, analysis of inputs from various sources, consolidation of materials, and text preparation.

(a) In accordance with the clause of this contract entitled "Electronic Submission of Payments Requests and Receiving Reports" (DFARS 252.232-7003), the Indian Head Division, Naval Surface Warfare Center will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture, and process receipt and payment-related documentation in a paperless environment. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training

(c) The designated CCR EB point of contact is responsible for activating the company's CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

(d) The following information regarding payment request routing is provided for completion of the document in WAWF:

Look at the bottom of the first page of your contract or order (basic, not modification) to find the form number, and then use the chart below that corresponds to your contract type (i.e., firm fixed price or cost plus fixed fee). This chart is a guide to finding information necessary for creating a payment request. In most cases, the chart points to a block number on a contract form or a particular section within the contract. In the WAWF system only use the DoDAAC ext. field if specifically directed, otherwise leave blank.
