## B-1 ADDITIONAL SLINS

Additional SLINs will be unilaterally created by the Contracting Officer during performance of this Task Order to accommodate the multiple types of funds that will be used under this Order.

## B-2 FEE DETERMINATION AND PAYMENT (LEVEL OF EFFORT)

### (a) Total Estimated Hours.

The total number of hours of direct labor (including overtime and subcontract hours), but excluding holiday, sick leave, vacation and other excused absence hours) estimated to be expended under this task order is (SEE TABLE BELOW) hours. The (SEE TABLE BELOW) direct labor hours include 0 uncompensated overtime labor hours.

### (b) Computation of Fee.

The fee per direct labor hour is computed by dividing the fixed fee amount shown in Section B by the number of estimated hours.

### (c) Modifications.

If the contracting officer determines, for any reason, to adjust the task order amount or the estimated total hours set forth above, such adjustments shall be made by task order modification. Any additional hours will be fee bearing, and the additional negotiated fee will be divided by the additional estimated hours to determine a new fee (applicable to the additional hours only). If the fee for these additional hours is different from that of the original estimated hours, these hours shall be kept separate from the original estimated total hours.

The estimated cost of the task order may be increased by written modification, if required, due to cost overruns. This increase in cost is not fee bearing and no additional hours will be added.

### (d) Payment of Fee.

Contractors may direct questions to the help desk, linked at <https://doncmra.nmci.navy.mil>.

### C-2 QUALITY ASSURANCE PLAN

(1) Objective: The purpose of this plan is to provide a quality assurance plan for the services contracted under this Task Order. This plan provides a basis for the Task Order Manager (TOM) to evaluate the quality of the contractor's performance. The oversight provided for in this plan, and the remedy established, will help ensure that service levels are of high quality throughout the task order term.

(2) Performance Standards:

- a. The deliverables under this task order will be consistently technically accurate.
- b. The services delivered under this task order will be consistently of high quality.
- c. The contractor's cost control efforts under this task order will be consistently effective (applicable to cost reimbursement task orders).
- d. The contractor will be consistently responsive to Government customers in its performance of this task order.
- e. For the purposes of this plan, "consistently" is defined as "generally holding true", "persistently over time", and/or "overall uniformly".

(3) Evaluation Methods: The TOM will conduct performance evaluations based the standards in

CONTRACT NO. N00178-04-D-4024	DELIVERY ORDER NO. NS26	AMENDMENT/MODIFICATION NO. 73	PAGE 26 of 106	FINAL
----------------------------------	----------------------------	----------------------------------	-------------------	-------

paragraph 2 above using the following technique:

- a. During the performance period of the task order, the TOM will continually and proactively monitor contractor efforts and obtain input from other Government personnel with performance oversight functions to ascertain the level of compliance with the Performance Standards.
- b. Every 12 months after the effective date of the task order, a Contractor Performance Assessment Report (CPAR) will be prepared to document the results of the efforts performed under paragraph 3.a. above.

(4) Remedy

- a. If the annual Performance Evaluation indicates that the contractor has not met one or more of the Performance Standards, the following negative remedy becomes effective: the CPAR will reflect the negative evaluation for the applicable Performance Standard.
- b. This is a significant negative remedy as the CPAR is a key part of the Performance Monitoring process which determines the contractor's ability to earn term extensions to its basic SeaPort-e contract in accordance with the Award Term provisions contained therein.

### **H-3 CONTRACTOR PICTURE BADGE (DEC 1999) (SPAWAR H-323)**

(a) A contractor picture badge may be issued to contractor personnel by the SPAWARSSYSCOM Security Office upon receipt of a valid visit request from the Contractor and a picture badge request from the COR. A list of personnel requiring picture badges must be provided to the COR to verify that the contract or delivery/task order authorizes performance at SPAWARSSYSCOM prior to completion of the picture badge request.

(b) An automobile decal will be issued by SPAWARSSYSCOM Security Office upon presentation of a valid contractor picture badge and the completion of the Badge and Decal Record.

(c) The contractor assumes full responsibility for the proper use of the identification badge and automobile decal, and shall be responsible for the return of the badge and/or destruction of the automobile decal upon termination of personnel or expiration or completion of the contract.

(d) At the completion of the contract, the contractor shall forward to SPAWARSSYSCOM Security Office a list of all unreturned badges with a written explanation of any missing badges.

### **H-4 CONTRACTOR IDENTIFICATION (DEC 1999) (SPAWAR H-355)**

(b) Contractor employees are required to clearly identify themselves and the company they work for whenever making contact with Government personnel by telephone or other electronic means.

## **H-5 LIMITED RELEASE OF CONTRACTOR CONFIDENTIAL BUSINESS INFORMATION (CBI) (NOV 2003) (SPAWAR H-359)**

### **(a) Definition.**

“Confidential business information,” as used in this clause, is defined as all forms and types of financial, business, scientific, technical, economic, or engineering information, including patterns, plans, compilations, program devices, formulas, designs, prototypes, methods, techniques, processes, procedures, programs, or codes, whether tangible or intangible, and whether or how stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing if -- (1) the owner thereof has taken reasonable measures to keep such information secret, and (2) the information derives independent economic value, actual or potential from not being generally known to, and not being readily ascertainable through proper means by, the public. Confidential business information may include technical data as that term is defined in DFARS §§ 252.227-7013(a) (14), 252.227-7015(a) (4), and 252.227-7018(a) (19). (b) The Space and Naval Warfare Systems Command (SPAWAR) may release to individuals employed by SPAWAR support contractors and their subcontractors confidential business information submitted by the contractor or its subcontractors pursuant to the provisions of this contract. Business information that would ordinarily be entitled to confidential treatment may be included in the information released to these individuals. Accordingly, by submission of a proposal or execution of this contract, the offeror or contractor and its subcontractors consent to a limited release of its confidential business information.

(c) Circumstances where SPAWAR may release the contractor's or subcontractors' confidential business information include the following:

(1) To other SPAWAR contractors and subcontractors, and their employees tasked with assisting SPAWAR in handling and processing information and documents in the administration of SPAWAR contracts, such as file room management and contract closeout.

(d) SPAWAR recognizes its obligation to protect the contractor and its subcontractors from competitive harm that could result from the release of such information. SPAWAR will permit the limited release of confidential business information under paragraphs (c) (1), (c) (2) and (c) (3) only under the following conditions:

(1) SPAWAR determines that access is required by other SPAWAR contractors and their subcontractors to perform the tasks described in paragraphs (c) (1), (c)(2) and (c)(3),

(2) Access to confidential business information is restricted to individuals with a bona fide need to

(5) SPAWAR contractors and their subcontractors performing the tasks described in paragraphs (c)(1), (c)(2) or (c)(3) have agreed under their contract or a separate non-disclosure agreement to not use confidential business information for any purpose other than performing the tasks described in paragraphs (c)(1), (c)(2) and (c)(3).

(e) SPAWAR's responsibilities under the Freedom of Information Act are not affected by this clause.

(f) If SPAWAR satisfies the conditions listed in paragraph (d), the contractor and its subcontractors agree to indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses, arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, display, or disclosure of confidential business information provided by the contractor to the Government.

(e) In the event the Contractor, or any of its employees, agents, or subcontractors (or their employees, agents or subcontractors), fail to comply with the provisions of this clause, such noncompliance shall be deemed a material breach of the contract for which the Government reserves the right to avail itself of any or all of the following remedies:

----------------------------------	----------------------------	----------------------------------	-------------------	-------

(b) Technical instructions must be within the general scope of work stated in the task order. Technical instruction may not be used to: (1) assign additional work under the task order; (2) direct a change as defined in the “CHANGES” clause in this task order; (3) increase or decrease the task order price or estimated task order amount (including fee), as applicable, the level of effort, or the time required for contract performance; or (4) change any of the terms, conditions or specifications of the task order.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the task order or is inconsistent with this requirement, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Contracting Officer that the technical instruction is within the scope of the task order.

#### **H-8 ORGANIZATIONAL CONFLICT OF INTEREST (ACCESS TO PROPRIETARY INFORMATION) (SPAWAR H-304) (DEC 1999)**

(a) This contract provides for the Contractor to provide technical evaluation and/or advisory and assistance services in support of SPAWAR Code 1.6 Cost Estimating and Analysis. The parties recognize that by the Contractor providing this support a potential conflict of interest arises as described by FAR 9.505-3 and FAR 9.505-4.

(b) For the purpose of this clause, the term “contractor” means the contractor, its subsidiaries and affiliates, joint ventures involving the contractor, any entity with which the contractor may hereafter merge or affiliate, and any other successor or assignee of the contractor.

(c) The Contractor agrees to execute agreements with companies furnishing proprietary data in connection with work performed under this contract, which obligates the Contractor to protect such data from unauthorized use or disclosure so long as such data remains proprietary, and to furnish copies of such agreements to the Contracting Officer. The Contractor further agrees that such proprietary data shall not be used in performing additional work for the Department of Defense in the same field as work performed under this contract whether as a prime, consultant or subcontractor at any tier.

(d) The contractor shall, within 15 days after the effective date of this contract, provide, in writing, to the Contracting Officer, a representation that all employees, agents and subcontractors involved in the performance of this contract have been informed of the provisions of this clause. Any subcontractor that performs any work relative to this contract shall be subject to this clause. The contractor agrees to place in each subcontract affected by these provisions the necessary language contained in this clause.

(e) The Contractor further agrees that it will not perform technical evaluations as described in the SOW for any product it has designed, developed, or manufactured in whole or in part. The Contractor further agrees to notify the Contracting Officer should it be tasked to conduct such technical evaluations on such products and to take no action unless directed to do so by the Contracting Officer.

(f) The Contractor acknowledges the full force and effect of this clause. It agrees to be bound by its

terms and conditions and understands that violation of this clause may, in the judgment of the Contracting Officer, be cause for Termination for Default under FAR 52.249-6. The Contractor also acknowledges that this does not represent the sole and exclusive remedy available to the government in the event the Contractor breaches this or any other Organizational Conflict of Interest clause.

#### **H-9 ACCESS TO PROPRIETARY DATA OR COMPUTER SOFTWARE (NAVSEA HQ C-2-002) (JUN 1994)**

(a) Performance under this contract may require that the Contractor have access to technical data, computer software, or other sensitive data of another party who asserts that such data or software is proprietary. If access to such data or software is required or to be provided, the Contractor shall enter into a written agreement with such party prior to gaining access to such data or software. The agreement shall address, at a minimum, (1) access to, and use of, the proprietary data or software exclusively for the purposes of performance of the work required by this contract, and (2) safeguards to protect such data or software from unauthorized use or disclosure for so long as the data or software remains proprietary. In addition, the agreement shall not impose any limitation upon the Government or its employees with respect to such data or software. A copy of the executed agreement shall be provided to the Task Order Contracting Officer. The Government may unilaterally modify the contract to list those third parties with which the Contractor has agreement(s).

(b) The Contractor agrees to: (1) indoctrinate its personnel who will have access to the data or software as to the restrictions under which access is granted; (2) not disclose the data or software to another party or other Contractor personnel except as authorized by the Task Order Contracting Officer; (3) not engage in any other action, venture, or employment wherein this information will be used, other than under this contract, in any manner inconsistent with the spirit and intent of this requirement; (4) not disclose the data or software to any other party, including, but not limited to, joint venture, affiliate, successor, or assign of the Contractor; and (5) reproduce the restrictive stamp, marking, or legend on each use of the data or software whether in whole or in part.

(c) The restrictions on use and disclosure of the data and software described above also apply to such information received from the Government through any means to which the Contractor has access in the performance of this contract that contains proprietary or other restrictive markings.

(d) The Contractor agrees that it will promptly notify the Task Order Contracting Officer of any attempt by an individual, company, or Government representative not directly involved in the effort to be performed under this contract to gain access to such proprietary information. Such notification shall include the name and organization of the individual, company, or Government representative seeking access to such information.

(e) The Contractor shall include this requirement in subcontracts of any tier which involve access to information covered by paragraph (a), substituting "subcontractor" for "Contractor" where appropriate.

(f) Compliance with this requirement is a material requirement of this contract

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the Changes clause of this contract.

(b) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. (a) Definition. As used in this clause, "sensitive information" includes:

(i) All types and forms of confidential business information, including financial information relating to a

contractor's pricing, rates, or costs, and program information relating to current or estimated budgets or

schedules;

(ii) Source selection information, including bid and proposal information as defined in FAR 2.101 and FAR 3.104-4, and other information prohibited from disclosure by the Procurement Integrity Act (41 USC

423);

(iii) Information properly marked as "business confidential," "proprietary," "procurement sensitive," "source selection sensitive," or other similar markings;

(iv) Other information designated as sensitive by the Space and Naval Warfare Systems Command (SPAWAR).

(b) In the performance of the contract, the Contractor may receive or have access to information,

including information in Government Information Systems and secure websites. Accessed information

may include “sensitive information” or other information not previously made available to the public that

would be competitively useful on current or future related procurements.

(c) Contractors are obligated to protect and safeguard from unauthorized disclosure all sensitive information to which they receive access in the performance of the contract, whether the information

comes from the Government or from third parties. The Contractor shall—

(i) Utilize accessed information and limit access to authorized users only for the purposes of performing

the services as required by the contract, and not for any other purpose unless authorized;

(ii) Safeguard accessed information from unauthorized use and disclosure, and not discuss, divulge, or disclose any accessed information to any person or entity except those persons authorized to receive the

information as required by the contract or as authorized by Federal statute, law, or regulation;

(iii) Inform authorized users requiring access in the performance of the contract regarding their obligation

to utilize information only for the purposes specified in the contract and to safeguard information from

unauthorized use and disclosure.

(iv) Execute a “Contractor Access to Information Non-Disclosure Agreement,” and obtain and submit to

the Contracting Officer a signed “Contractor Employee Access to Information Non-Disclosure Agreement” for each employee prior to assignment;

(v) Notify the Contracting Officer in writing of any violation of the requirements in (i) through (iv) above as soon as the violation is identified, no later than 24 hours. The notice shall include a description

of the violation and the proposed actions to be taken, and shall include the business organization, other

entity, or individual to whom the information was divulged.

(d) In the event that the Contractor inadvertently accesses or receives any information marked as “proprietary,” “procurement sensitive,” or “source selection sensitive,” or that, even if not properly

marked otherwise indicates the Contractor may not be authorized to access such information, the Contractor shall (i) Notify the Contracting Officer; and (ii) Refrain from any further access until authorized in writing by the Contracting Officer.

(e) The requirements of this clause are in addition to any existing or subsequent Organizational Conflicts

of Interest (OCI) requirements which may also be included in the contract, and are in addition to any personnel security or Information Assurance requirements, including Systems Authorization Access Request (SAAR-N), DD Form 2875, Annual Information Assurance (IA) training certificate, SF85P, or

other forms that may be required for access to Government Information Systems.

(f) Subcontracts. The Contractor shall insert paragraphs (a) through (f) of this clause in all subcontracts

that may require access to sensitive information in the performance of the contract.

Mitigation Plan. If requested by the Contracting Officer, the contractor shall submit, within 45 calendar

days following execution of the "Contractor Non-Disclosure Agreement," a mitigation plan for

Government approval, which shall be incorporated into the contract. At a minimum, the mitigation plan

shall identify the Contractor's plan to implement the requirements of paragraph (c) above and shall include

the use of a firewall to separate Contractor personnel requiring access to information in the performance

of the contract from other Contractor personnel to ensure that the Contractor does not obtain any unfair

competitive advantage with respect to any future Government requirements due to unequal access to information. A "firewall" may consist of organizational and physical separation; facility and workspace

access restrictions; information system access restrictions; and other data security measures identified, as

appropriate. The Contractor shall respond promptly to all inquiries regarding the mitigation plan. Failure

to resolve any outstanding issues or obtain approval of the mitigation plan within 45 calendar days of its

submission may result, at a minimum, in rejection of the plan and removal of any system access.

## **PERFORMANCE WORK STATEMENT**

### **SPAWAR 1.6 COST ESTIMATING AND ANALYSIS SUPPORT**

**Revision 1**

**24 July 2008**

#### **1.0 INTRODUCTION**

The Space and Naval Warfare Systems Command (SPAWAR) Cost Estimating and Analysis (Code 1.6) serves as the cost estimating and analysis lead overseeing Program Executive Office (PEO) and Program Manager (PM) defined cost estimating and analysis and Earned Value Management (EVM) analyses. The Cost Estimating and Analysis Code promotes use of common business/financial tools and best business practices throughout Team SPAWAR and provides credible, defensible, and sound business and financial management support across all SPAWAR organizations within the SPAWAR claimancy.

#### **2.0 BACKGROUND**

The Cost Estimating and Analysis Code is responsible for management and has the approving technical authority of Team SPAWAR's cost estimating and analyses and EVM analyses. The Cost Estimating and Analysis Code serves as an independent, non-advocate organization with responsibilities to develop, evaluate, assess, and oversee Program Life Cycle Cost Estimates (PLCCEs) for all Program Offices within Team SPAWAR. This organization translates system/functional requirements associated with programs, project proposals or processes into budgetary requirements for financial reporting purposes. It also determines and communicates a realistic view of the likely cost outcome of a system or program. This outcome can form the basis of the plan for executing the work to develop, field, and support the system or program. The Cost Estimating and Analysis Code will provide independent recommendations to senior DoD and Navy management with the goal to assist in the making sound financial business decisions. Support is provided to the Team SPAWAR and affiliated PEOs, currently

located in multiple locations within the Continental United States (CONUS), and deliver best business practices that will provide accurate and timely financial information.

### 3.0 SCOPE

The objective of this effort is to assist the Cost Estimating and Analysis Code with efforts necessary to conduct short and long range cost estimating and analyses for all acquisition, non-acquisition pre-Milestone A, Rapid Deployment Capability (RDC), and special interest programs within Team SPAWAR. This support will include the development of PLCCEs and Section C of the Program's Acquisition Program Baselines (APBs). Other efforts will include independent cost evaluations and assessments, risk/uncertainty analyses, trend analyses, variance analyses, and sensitivity analyses. Use of the current SPAWAR Global Work Breakdown Structure (GWBS) is required. Other GWBS structures also may be used for cost estimating purposes. In addition to this task order, contractor provided services and deliverables from this task include multiple Program Objective Memorandums/Program Reviews (POMs/PRs) budget submissions, support to a program milestone decision or decision reviews and gate reviews from a cost perspective. Other effort that the cost analyst may encounter is the support in the development of acquisition strategies and other acquisition-related documentation normally required for major decision-making events, development of cost databases, cost estimating relationships (CERs) or cost factors, develop Cost as an Independent Variable (CAIV) Plans, and perform Earned Value Management (EVM) analyses or unique cost reporting for major Acquisition Category (ACAT) Programs.

#### **Cost Estimating Relationships (CERs) (PWS Paragraph 5.6)**

A CER is a mathematical relationship that defines cost as a function of one or more parameters such as performance, operating characteristics, physical characteristics etc.

## **ATTACHMENT 1**

### **Cost as an Independent Variable (CAIV) (PWS Paragraph 5.8)**

CAIV is a methodology for reducing Life Cycle Cost and improving performance. It involves developing, setting, and refining aggressive unit production cost objectives and O&S objectives while meeting war fighter requirements.
