PREPARING FOR YOUR VIRTUAL INTERVIEW WITH BOOZ ALLEN HAMILTON

At Booz Allen, we expect our people to dream big, drive hard, and do right. In exchange, we empower them to change the world. Now it’s our turn to get to know you in a live video interview. Live video interviews deliver flexible, convenient opportunities to connect to your interview. They can replace or supplement on-site interviews and are conducted using a computer with a webcam.

Ready to tell us how you’re going to change the world? Let’s begin: Here’s how to use video interviewing on your computer.

1. Open your Booz Allen email calendar invitation and copy/paste the ‘click here to join the meeting’ link on to a private internet browser. (A)
   - On the day of your interview, find a quiet location, check your lighting, and test your technology. Our virtual interview platform works on most modern browsers. Learn more browser compatibility. Internet Explorer is not recommended.
2. Once the How do you want to join your Teams meeting? page opens, select the ‘Continue on this browser’ option to join the meeting through your browser. (B)
3. Your browser may prompt you to grant Microsoft Teams access to your camera and microphone. Be sure to allow it so you’ll be seen and heard in your interview. (C) Note: The notification to grant video and audio access will vary by internet browser.
4. Enter your name, select ‘Join now’, and you’re ready to begin your interview.
   - By default, your microphone and camera are turned on and highlighted in blue, if you granted Microsoft Teams access in step 3.
