About Alliant 2

The GSA's next-generation GWAC, Alliant 2 is a multiple-award, indefinite-delivery, indefinite-quantity (IDIQ) Governmentwide Acquisition Contract (GWAC) offering comprehensive and flexible IT solutions worldwide. Alliant 2 provides federal agencies with any and all components of an integrated IT solution, including existing new technologies that may emerge during the lifecycle of the contract and IT systems and services.

The scope of Alliant 2 leverages leading-edge technologies (LET) and is designed to stay current with the evolving Federal Enterprise Architecture (FEA), providing customers with the latest in technology innovations. As the definition of IT changes over the lifecycle of the Alliant 2 contract, the scope will coincide with the current definition at any given time. This GWAC will provide best value IT solutions through performance of a broad range of services which may include the integration of various technologies critical to the services being acquired.

Alliant 2 Features and Benefits:

- A \$82.5B program ceiling with five-year base period with one five-year option. Orders awarded within the effective period of the GWAC may extend an additional five years past the GWAC end date; through June 30, 2032
- Pre-competed, easy-to-use contract with streamlined ordering procedures based on FAR 16.505
- Serves all federal government agencies
- Allows for long-term planning of large-scale program requirements and decentralized ordering
- Has a broad and evolving (unlimited) IT scope
- Enables innovative solutions at competitive prices from 38 exceptionally qualified industry partners
- Flexible teaming arrangements at the task order level
- All contract types including hybrid (e.g., Fixed Price, Cost Reimbursement, Labor Hour, and Time and Materials)
- Low contract access fee of .75%
- No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC
- Minimal ODC limitations
- Complimentary scope-compatibility reviews by GSA

Delivering Solutions to Alliant 2 Customers

Booz Allen is proud to be a contractor on the Alliant 2 GWAC. As a longtime partner and provider of IT-based solutions to the federal government, we work with our clients to make missions more effective and resilient. Booz Allen is ready to fulfill federal agencies' requirements in all segments of the federal IT market.

Through Alliant 2, Booz Allen offers:

- **Demonstrated experience in delivering high-quality IT solutions** to meet customer strategic missions across all Alliant 2 component areas: application services, IT management services, infrastructure, security, and ancillary services, with a focus around C4ISR, readiness, weapons modernization, cyber, and consulting. Our approach includes methodologies and capabilities that were developed in response to the rising complexity of programs in government and industry.
- **Comprehensive IT resources**, including more than 35,000 high-quality staff located in offices on six continents—all supported by an award-winning training program and a proven security program.
- **Dedicated program support and leadership** through our in-place Alliant 2 Program Management Office. These resources provide robust and efficient support for your contracting needs to expedite the time between requirement and solution.
- **Contracting flexibility** for clients by providing custom access to all contract types (e.g., Fixed Price, Cost Reimbursement, Labor Hour, and Time and Materials) and a streamlined performance-based process from contract initiation through delivery and closeout. In addition, Booz Allen leverages our suite of tools to support e-business/e-commerce that promotes visibility and collaboration with contract management personnel.
- **Dedicated business development resources**, located worldwide to promote the benefits of Alliant 2, assist in identifying opportunities, and facilitate its use.
- **A mission-driven approach to subcontracting** that matches task-order-specific customer requirements to our existing pool of the strongest subcontracting partners in the industry—both large and small—to resolve the critical issues facing GSA's clients.
- **A commitment to the small-business community** and to meeting Alliant 2's 50% small-business subcontracting goal. Booz Allen has a record of success in exceeding small-business goals on its contracts.

Our Capabilities

Booz Allen offers premier technology-based consulting skills and management commitment to apply its world-recognized innovation to exceed program objectives. Our approach includes methodologies and capabilities that were developed in response to the rising complexity of programs in government and industry. Our services are customized for use by all agencies across the civil, defense, and intelligence markets. Our functional skills are fully integrated with the FEA and cover a broad spectrum of services, including consulting, analytics, digital solutions, engineering, and cyber.

How to Place and Order on Alliant 2

GSA designed Alliant 2 contract for ease of use, with two flexible options for placing task orders:

- For many customers, GSA's range of Assisted Acquisition Services is the preferred route. GSA's client-centric organization will support the full spectrum of the Alliant 2 acquisition life cycle so the customer can focus on advancing their core mission.
- Customers with access to an in-house or agency contracting office may wish to access Alliant 2 directly for ordering. GSA maintains a list of all Contracting Officers (CO) who have an authorized Delegation of Procurement Authority (DPA). Obtaining a DPA is simple and is the first requirement a CO must meet to solicit, evaluate, award and modify task orders under Alliant 2.
