About OASIS+

One Acquisition Solution for Integrated Services Plus (OASIS+) is a suite of governmentwide, multiple-award Indefinite Delivery, Indefinite Quantity (IDIQ) contracts designed to support federal agencies' procurement requirements for services-based solutions. OASIS+ is available for use by agencies throughout the Federal Government who hold a Delegation of Procurement Authority (DPA). The contract scope is organized by Domains, which are functional groupings of related services. Each Domain contains multiple North American Industry Classification System (NAICS) codes.

Booz Allen Holds All Eight Unrestricted Domains

Contract Number: 47QRCA25DU052

**Management and
Advisory Services**

**Environmental
Services**

**Technical and
Engineering Services**

**Facilities
Services**

**Research and
Development Services**

**Logistics
Services**

**Intelligence
Services**

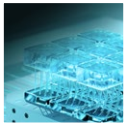

**Enterprise
Solutions**

Benefits and Features of OASIS+ Include:

- Flexible/expandable domain-based structure
- Global access to commercial and noncommercial structures
- No limitations towards the contract or awarded task order ceiling
- Decentralized ordering
- Flexibility to use all contract types allowable by the Federal Acquisition Regulation (FAR)
- Supports both CONUS and OCONUS requirements
- 10-year option period (base of 5 years + one 5 year option period)
- Reduced procurement lead times and administrative costs
- Subcontracting flexibility – teaming determined at the task order level
- Ease of use and ready access to all of Booz Allen Hamilton's robust service offerings
- Price evaluation at the task order level
- Task order solicitation through a single platform, GSA eBUY
- OASIS+ is OMB designated Best-in-Class (BIC) as a preferred governmentwide program

Our Capabilities

Booz Allen is proud to be a prime contractor on the OASIS+ Unrestricted IDIQ encompassing a broad scope of solutions. As a longtime partner and provider of services-based solutions to the federal government, we work with our clients to make missions more effective and resilient. Booz Allen is ready to fulfill federal agencies' requirements across all OASIS+ program domains. For additional information on our offerings and how Booz Allen is transforming government services, visit: [Markets](#).

Artificial Intelligence (AI)

We are the trusted AI leader to the nation; revolutionizing the country through AI solutions that power, protect, and propel us toward positive outcomes.

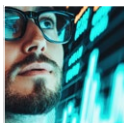

Innovation

Our end-to-end innovation ecosystem allows clients to architect intelligent and resilient solutions for future missions.

Cybersecurity

Through decades of experience and the most advanced tools available, we keep your mission secure and moving forward.

Digital Solutions

We're trusted to advance sensitive missions through digital transformation—with solutions that deliver the right capabilities with valuable insights.

Engineering

Pioneering next-gen tools and products with world-class engineering expertise centered in 27 labs and other facilities across the U.S. and globally.

Technology Accelerators

To keep pace with today's rapidly changing tech environment, we are constantly adding new accelerators to our suite of tools.

How to Place an Order on OASIS+

GSA designed OASIS+ for ease of use, with two flexible options for placing task orders:

- For many customers, the General Services Administration's (GSA) range of Assisted Acquisition Services is the preferred route. GSA's client-centric organization will support the full spectrum of the OASIS+ acquisition life cycle so the customer can focus on advancing their core mission.
- Customers with access to an in-house or agency contracting office may wish to access OASIS+ directly for ordering. GSA maintains a list of all Contracting Officers (CO) who have an authorized Delegation of Procurement Authority (DPA). Obtaining a DPA is simple and is the first requirement a CO must meet to solicit, evaluate, award and modify task orders under OASIS+.

Awards and Recognitions

#1 provider of AI services to the U.S. government
